Innovative Academic and Outreach Programs:

- Led the development of a *Proposal for a School for Interdisciplinary Informatics* (to include new academic degrees in cybersecurity, biomedical informatics and IT innovation)
- Led the development of a *multidisciplinary PhD program* in Information technology (IT)
- Led the reengineering of *ABET accreditation efforts* for the college's undergraduate programs in MIS and computer science. Was also engaged in *AACSB accreditation* at Northern Kentucky University's College of Business
- Led the development of two *dual degree programs*: MS in MIS and MBA; MS in MIS and MPA
- Led the development of a unique *1+1 graduate program* where students can receive a European and UNO graduate degree in two years in collaboration with MCI Austria and TUB Germany.
- Created an accelerated pathway, *4+1*, for high achieving undergraduate students in the college to obtain an MS degree by adding another year
- Created a unique pathway, *Plus 2 program*, for international students from Indian and Chinese partner universities wherein students enter a graduate program in their senior year.
- Created and implemented an *iSTEM after school* program for economically underprivileged middle school students) – funding provided by the Sherwood Foundation and the Peter Kiewit Foundation
- Created, obtained funding, and implemented a unique immersion experience for engaging young girls (8th/9th grade) in the various facets of IT academics and careers, predominantly targeted towards rural communities in the Midwest (<http://codecrush.unomaha.edu>).
- Developed and managed *Techademy* (Summer workshops for middle and high school students)
- Instituted *collaboration retreats* with corporations and other colleges in the University to explore partnership opportunities for funded &D initiatives, grants, and joint academic programs
